Mills Morning Herald
The report of the City Treasurer—\$11,000 is being the total expenditure of city from April 1st, 1869, to Sept. 1st, undoubtedly correct as far as his books show. A report from the City Treasurer can never show the true state of the city affairs unless every order and bond issued by the city is paid.

The expenditures of the city from April 1st, 1869, to Sept. 1st, is \$19,776.43

Add orders issued last Council meeting..... 1,096.63

Total expenditures 20,872.07

TAX PAYEE.

REMARKS.

The figures of "Tax Payer" are taken from the order book of the City Clerk, and as indicating the amount of orders issued since April 1st are unquestionably correct. But it is not true that all this expenditure has been incurred under the present City Council. Deducted from this amount should be the sum of \$3,500 appropriated by the retiring Board for the purchase of the city lot on Spring street; the sum of \$2,500 appropriated to C. M. Allen for the settlement of a borrough account; and the additional sum of \$150 by the City Clerk for the investigation of said account. These deductions from the alleged expenditures by the present Board, since April 1st (a period of five months), reduce the sum to \$13,64, which is all that is properly chargeable against the present city administration. We fail to perceive any thing charging in this state of facts, or otherwise, to justify the charges so freely made against the present Council of reckless extravagance. It is not the fault of that body that certain public improvements, in my judgment, are to be gone without, and that the people are anxious for their execution. There may have been some imprudencies expensed upon certain streets, but it is what the work performed upon the present Council of recklessness extravagance.
